NOMINATIONS NEXT MONDAY

Notices have been posted by the village secretary giving notice that a meeting of the electors of the Village of Mirror will be held at the School House, on Monday, Dec. 1, 1913, from 8 to 10 o'clock p. m., for the purpose of nominating candidates for councillors for the Village of Mirror for the ensuing year.

W. C. Gardiner is the returning officer.

FORMER SCHOOL LOT FOR CEMETERY

The Village Council held a special meeting last (Thursday) evening; all members present. The offer made to the School Board some time ago, for the old school site and building was accepted by them and the Council met last night to complete the deal. \$600 was paid for the building and \$50 an acre for the land.

The land, which is situated north of Mirror on the Lamer-ton road, will be used for a cemetery.

BOARD OF TRADE

A meeting of the Mirror Board of Trade is called for Tuesday evening, Dec. 2nd, at 8 o'clock in the School House for the purpose of nominating officers for the ensuing year and reviewing the yearly report. The Board seems to have died a natural death and no

meetings have been held for months. Our citizens have failed to take an interest in the organization, and although several, especially the President, J. F. Flewelling, have always attended the meetings that were held, the Board of Trade has gradually dropped out of sight.

There is work for a Board of Trade to do and the citizens are urgently requested to attend next Tuesday and revive this public body, which is an acquisition to every good town in the country. Everybody attend.

S. BUFFALO LAKE

Harry Fell has pulled his chopping machine to the east of here for a couple of weeks work. He is doing a land-office business.

J. H. Sorum recently purchased another registered Durabour from Mr. Maurer, of Pleasant Valley, Alta.

HAUNTED LAKES
FRIDAY, DEC. 5th, 1913
At 8 p. m. sharp

Colored Bonfires, Grand Fireworks Display, Lighted with Chinese Lanterns, Musical Chairs, etc., on Skates. Free admission. Bridge Tournament will be held in Col. Maryetta's house where refreshments will be served.

PRIZES
Best Adult Fancy Dress, Best Costume, Best Child's Fancy Dress. Come and Bring your Friends
Admission, 50c. 12 Children, 25c.

SCHOOL DISPUTE IS SETTLED

The dispute over the Mirror school, which has been in progress for the past few weeks, was again the reason for holding a meeting of the ratepayers in the present school house last Tuesday evening. The meeting was one of the largest ever held in Mirror, a number of ladies being in attendance, and showed unquestionably the interest that is being taken in this regrettable dispute.

H. J. Raymer was appointed to the chair and lost no time in introducing the subject, viz., the refusal of the School Board to pay J. Berry, the contractor, the three certificates due, until work was completed satisfactorily. Mr. Raymer expressed the wish that some solution would be arrived at and the dispute settled outside the law court.

W. C. Gardiner was appointed secretary of the meeting.

W. C. McCormack was the first speaker and gave a synopsis of what had been done by the School Board so far, and stated that the board had been served with a notice that suit could be entered for the money due. This meeting was for the purpose of getting the ratepayer's expression as to whether the action be defended or the money paid over. Personally, he was in favor of the former course. It was a question whether the people of the district had the backbone to say they would "have what they were paying for, or take a poorly constructed building that might be condemned in 10 years." In his knowledge, Mr. Berry made no offer to fix up the building. He asked that the secretary read the contract.

A number of questions pertaining to several clauses in the contract were asked by T. R. McCormack. Whether all work passed by the architect was to be accepted by the S. B. thought that if Board had not made payments as specified, they were the first to break the contract.

It was brought out that the reasons for not making the payments on time was the delay in settling the debt. There was no legal contract between the architect, contractor and the Mirror School Board.

J. Swartz wanted to know who was to blame for the way the contract was drawn up. Trustees were put there for the purpose of seeing that the work was properly done. As it was, there seemed to be no one to make a kick until work was nearly finished. Was a poor job in his opinion.

In reply to a question from H. Kiesel, as to whether inspector's visit was made at a private or official request, Mr. McCormack replied that inspector had paid the visit at his (McCormack's) request.

Geo. Robinson thought School Board was to blame for the mix-up, asked who had recommended the architects; W. G. Merkle replied that a clerk in the government office had recommended Marvin & Hanes.

"Being a ratepayer," said Mr. Raymer, "and the representative of a corporation that pays a good many dollars towards the upkeep of the village and school, I think I have a right to say a few words on this vexed

question. There is no doubt that the school has not been built strictly in accordance with the plans and specifications, but the poorly constructed parts were not so bad but what they could be adjusted. As a step towards a settlement, I would suggest the following: That providing Mr. Berry agrees to make good the defects, the Board pay \$200 two certificates, and the third when work was completed to the satisfaction of the trustees."

Geo. Robinson: School accommodation was required at once and he favored an early settlement. Was satisfied with the proposition offered by the chairman, and moved that H. J. Raymer, W. C. McCormack and J. F. Flewelling be a committee to draft an offer and present it to Mr. Berry.

Mr. Berry was present, and when asked if he wished to speak, declined to express himself but signified his willingness to meet the committee. Meeting then adjourned to give the committee an opportunity to consult with Mr. Berry.

After a great deal of discussion and after several meetings between the committee appointed at last Tuesday's meeting and Mr. Berry, the contractor, a settlement has been arrived at and alterations and work on the school house will proceed at once. The agreement is practically the same as was suggested at the ratepayer's meeting.

H. J. Raymer will probably act as overseer while the alterations are being made to the building.

AT THE IMPERIAL

Friday, Nov. 21.—Joe, Shearson, Camrose; E. M. Jobb, Strone; Deffer, Trochu, Trochu; Geo. Johnson and wife, Pine Lake, Alta.; Mrs. E. M. Perry, Pine Lake; J. A. Melvin, Toronto; The Sisters, Trochu; C. D. Howell, H. McRae, Camrose.

Saturday.—J. H. Culp, Trochu; W. A. South, Edmonton.

Sunday.—W. F. Puffer, Lacombe; J. A. McGill, Coliholme; W. N. Williams, Bashaw.

Monday.—H. F. Tilley, Edmonton; Mr. Cummings, Wpeg.; B. W. Langer, Chase, B. C.; F. P. Berres, Logan, Iowa; R. C. Brewster, Mirror; R. F. Scheirich, Trochu; J. Gurney, Lacombe; J. P. Knap, E. W. Potts, Calgary; J. H. McKee, Edmonton; H. McKee, Camrose; B. Dalby, Metiskow; W. R. McBurn, Edmonton; G. V. Macdonald, Wetaskiwin; N. B. Hicks, Wpeg.; J. L. Bond, Edmonton.

Tuesday.—L. Lloyd Hiles, Calgary; P. H. Morgan, Edmonton; R. L. Ringrose, W. A. Holston, Edmonton; P. L. Grasse, Innisfail; F. E. Hartley, C. W. Graham, Bells, Alta.; J. H. Culp, A. D. Casey, Mirror; Joe Bruce.

MIRROR, ALTA., NOV. 28, 1913

Distribution of Seed Grain and Potatoes

FROM THE DOMINION EXPERI-
MENTAL FARMS, 1913-1914

By instructions of the Hon.
Minister of Agriculture a dis-
tribution of superior sorts of
grain and potatoes will be made
during the coming winter and
spring to Canadian farmers. The
samples for general distri-
bution will consist of spring
wheat (5 lbs.), white oats (4 lbs.),
barley (5 lbs.), and field peas
(5 lbs.). These will be sent out
from Ottawa. A distribution of
potatoes (in 3 lb. samples)
will be carried on from several
of the experimental farms, the
Central Farm at Ottawa sup-
plying only the provinces of
Ontario and Quebec. All sam-
ples will be sent free, by mail.

Applicants must give particu-
lars in regard to the soil on
their farms, and some account
of their experience with such
kinds of grain (or potatoes) as
they have grown, what a
promising sort for their con-
ditions may be selected.

Each application must be
separate and must be signed by
the applicant. Only one sample
of grain and one of potatoes
can be sent to each farm.
Applications on any kind of
printed form cannot be accept-
ed. If two or more samples are
asked for in the same letter
only one will be sent.

As the supply of seed is lim-
ited, farmers are advised to ap-
ply early; but the applications
will not necessarily be filled in
the exact order in which they
are received. Preference will
always be given to the most
thoughtful and explicit re-
quests. Applications received
after the end of January will
probably be too late.

All applications for grain
(and applications from the pro-
vinces of Ontario and Quebec
for potatoes) should be ad-
dressed to the Dominion Con-
sult, Central Experimental
Farm, Ottawa. Such applica-
tions require no postage. If
otherwise addressed delay and
disappointment may occur.

Applications, for potatoes,
from farmers in any other pro-
vince should be addressed
(postage prepaid) to the Sup-
erintendent of the nearest
Branch Experimental Farm in
that province.

J. H. GRISDALE,
Director, Dominion Experimental
Farms.

Maple Sugar Industry

It may surprise many to
learn that the maple sugar and
syrup crop in Canada is worth
about two million dollars per
year. In the Province of Que-
bec the industry has maintained
a strong foothold, more espe-
cially in those counties that con-
tain more or less rough and
rocky land. In Ontario it also
bulks large, and in New Brun-
swick and Nova Scotia consider-
able quantities of sugar and
syrup are made each spring.

During recent years the in-
dustry has shown signs of de-
cline, and in order to encourage
its improvement the Hon. Mar-
tin Burrell, Minister of Agri-
culture, has authorized the pre-
paration of bulletins which
should give it considerable sup-
port.

One cause of the decline is
given as the poor quality of
much of the goods made. On
the authority of extensive
dealers it is estimated that
fully sixty per cent. of maple
products do not grade above
No. 4, and that this vast amount
has to be sold for not more
than half the price per pound
of No. 1 goods, of which about
10 per cent. is made. On this
account it is pointed out in the
bulletin that makers are losing
each year on quality alone,
fully one million dollars.

The bulletin goes fully into
the subject of syrup and sugar
making, describing clearly the
necessary equipment and its
operation, and gives useful in-
formation on marketing. An
interesting section describes the
making of maple vinegar and
the collection and preparation
of sugar sand which constitute
two valuable by-products of
sugar making.

The work, which is from the
pen of J. B. Spencey, B. S. A.,
editor of the Publications
Branch, is gotten up in very
attractive form, containing
many beautiful illustrations
portraying sugar making scenes,
ancient and modern. To show
the appearance of sugar and
syrup of different grades,
plates of samples of each are
presented in natural colors.
This work, which is designated
"The Sugar-making Industry in
Canada," will be sent free to
those who apply for it to the
Publications Branch of the
Department of Agriculture at
Ottawa.

We Are Ready to Be Bought

Your little girl would be tickled most
to death to get us from Santa Claus.
We are ready and waiting to be bought.
But if you wait too long some one else
will get us, because we are really
mighty cute. Better try us today and
then you will surely have us. You can
send us in the closest, until Christmas.
We will not mind waiting in the dar-
ing, in fact, we rather like it.

Mail Order Houses Buy Newspapers

The big departmental stores continue to extend their interests in or control of the daily newspapers in Toronto, Montreal and Winnipeg. A large interest in, if not the control of, another Toronto daily has just been acquired. This makes three dailies in Toronto in which these mail order houses are financially interested. In Montreal it came out in legal proceedings recently that one of the oldest daily papers there passed some months ago into the hands of the chief owner of a riding mail order house which aims to monopolize the trade in Eastern Canada. There are now dailies in Toronto, Montreal and Winnipeg, which are known to be owned, or controlled by the big store and financial interests, and while placed as the mediums of public opinion are the organs of these interests. The trade of these houses has grown enormously in these cities where these dailies circulate, but in the other cities and smaller places where there are good local newspapers, they have not made the same gains, because the local newspapers are well edited and are loyal to their local merchants and refuse to carry the advertising of the big city store. The only way in which the big dailies can make headway is by cutting their prices. They get \$3 to \$5 a year in Montreal, Toronto and Winnipeg, but sell in other cities at \$6 to \$1 a year. This does not pay for the white paper on which these newspapers are printed, but the heavy deficits are made up by subsidies through big advertising contracts and in other ways, and by the low postal rates. The merchants and newspapers outside of these three big centres should get together and insist that no newspaper should have the privilege of the mails which has a lower subscription price outside than in the centre in which it is published or which sells at less than the cost of the paper used.—Dry Goods Review.

HOLIDAY EXCURSIONS VIA. G. T. P.

The Grand Trunk Pacific desire to call the attention of holiday travelers to the increased train service which is demanded through the popularity of the Chicago route.

The Great Northern, in order to handle comfortably the Christmas excursion travel will have, effective December 1st a "holiday train" leaving Winnipeg at 11.20 every evening in addition to their present train which leaves Winnipeg at 4.45 in the afternoon.

The Northern Pacific have a double daily service between Winnipeg and St. Paul leaving Winnipeg at 7.30 in the morning and 5.15 in the evening.

The Soo Line leaves Winnipeg at 5.00 p. m. daily.

All the trains are electric lighted throughout, with electric lights in sleeping car berths; besides carrying an observation compartment car.

The demand for information, rates and reservations via the Chicago route, this year, are away beyond expectations, notwithstanding Western Canada passengers are assured of very best and ample equipment for their needs and a comfortable journey over this interesting route via St. Paul, Chicago and all the prominent cities of Ontario.

The Agents of the Grand Trunk Pacific located at Calgary, Edmonton, Moose Jaw, Regina, Saskatoon and Winnipeg hold space in sleepers on

connecting lines from Winnipeg as well as Grand Trunk Railway sleepers out of Chicago, so that passengers traveling via the Grand Trunk Pacific may secure their sleeping accommodation through to destination at any of the above offices.

YOU INTEND

to buy your Christmas presents early. You know you do. But intentions that do not crystallize into actions are as valueless as a postmortem examination of a pinchle game.

DO AS YOU INTEND

and do it now! Begin today to buy your Christmas presents. You will thereby please merchants, clerks, delivery boys and yourself, and you will also please the person who gets the present, because it will be chosen from a complete stock and will not be accepted in a hurry.

ENGLISH HAND LACE

MADE BY THE VOLCANOES IN BRITAIN

When the report of a destructive volcanic eruption appears in our newspapers, the most English people revere, with some satisfaction that such a disaster should have occurred in a remote part of the world, and that it is not always been from volcanic outbreaks. Some of the greatest eruptions have occurred in the British Isles. The last British volcanic eruption was the last British volcanic eruption which died down long before man made his appearance on this earth, though great numbers of other eruptions must have preceded his during the eruptions which occurred.

Geologists have discovered traces of the action of these volcanoes in many parts of both Britain and Ireland.

Those who have visited the Lake District have probably noted some of the lava, which were poured out of the bowels of the earth during what has been termed the age of fire.

The eastern shore of Lake Derwentwater, for example is filled with hills which are composed of sheets of lava and ash.

So long as the twelve distinct beds of lava have been noted there, piled up in an altitude of 1,500 feet above the sea level.

One of these hills, named Catbrough, is the most prominent of the volcanic group. It is a mountain of lava, and the lava which formed the neighboring hills.

Volcanic ash, the deposit of lava in Cumbria, and Thirlmere, the source of Manchester's water supply, are entirely surrounded by volcanic ash.

It is worthy of notice that the volcanic rocks occur in those parts of the country which are famous for fine scenery. This is a close connection between rugged scenery and volcanic rocks. The Lake District, and Scotland owe much of their beauty to the eruptions, which millions of years ago mingled igneous with sedimentary rocks.

Economy is not going without the thing we need when we have the money to get it. Economy is not having a good thing on the top shelf and using a poor one because it will do. Economy is making the most of what we have, and getting things that will do it to do better as fast as we can the money to buy them.

Applauds of vanity Senator Reid told at Yale about a politician who, the day before he was to deliver a speech, sent a forty-one page report of it to all the papers. On page 20 appeared this paragraph: "But he grew late, and I must close. (No, no! Go on! Go on!)"

Pills That Have Benefited. These are—Coughs, colds, and a sure remedy in the treatment of influenza, and all its dangerous complications of the stomach, liver and kidneys. Farnsworth's Vegetable Pills have brought relief to thousands when other specifics have failed. Innumerable testimonials can be produced to establish the truth of this assertion. Once tried they will be found superior to all other pills in the treatment of the ailments for which they are prescribed.

Books and Bacon. A minister, who was proud of his boy's attainments at school, one evening picked up a home-bacon from the table and said to the boy: "I have a question which runs like this: Some books should be tasted and some swallowed, and some chewed and digested."—Hence, turning to his boy, he said: "This doesn't eat books at school, does that? I know you are very clever but you can't do these nasty goat tricks. I'm sure, I will warrant that'll be one of these printer's errors, sonny."

On no, father, said the boy. Measurably speaking, we eat books.

Now, you cannotiddle me like that said the father. I don't go to school very long, but I can read one of these printer's errors. Why, sonny, can you not see? He's got the word "Bacon" in the wrong place. It should be "Some books should be tasted, some swallowed, and some chewed and digested."—Bacon.

Minard's Liniment. Cures Deafness.

The Lancashire people are fond of dogs, in fact, very proud of them and therefore, when a prominent dog fancier came home one night and found his dog had brought a wonderful mangel he was not pleased.

How much did these pigs for that dog he inquired.

Five shillings, replied the son.

Tell this what will do the reward the street. Ah! you are a thief then. All the pigs in the town for no reason.

The half crown, was duly paid, then the father remarked: Ah! take that pig, and go to bed, and I will not see you again.

And I did.

VOLCANOES IN BRITAIN

Eruptions of Ancient Times Famed

When the report of a destructive volcanic eruption appears in our newspapers, the most English people revere, with some satisfaction that such a disaster should have occurred in a remote part of the world, and that it is not always been from volcanic outbreaks. Some of the greatest eruptions have occurred in the British Isles. The last British volcanic eruption was the last British volcanic eruption which died down long before man made his appearance on this earth, though great numbers of other eruptions must have preceded his during the eruptions which occurred.

Geologists have discovered traces of the action of these volcanoes in many parts of both Britain and Ireland.

Those who have visited the Lake District have probably noted some of the lava, which were poured out of the bowels of the earth during what has been termed the age of fire.

The eastern shore of Lake Derwentwater, for example is filled with hills which are composed of sheets of lava and ash.

So long as the twelve distinct beds of lava have been noted there, piled up in an altitude of 1,500 feet above the sea level.

One of these hills, named Catbrough, is the most prominent of the volcanic group. It is a mountain of lava, and the lava which formed the neighboring hills.

Volcanic ash, the deposit of lava in Cumbria, and Thirlmere, the source of Manchester's water supply, are entirely surrounded by volcanic ash.

It is worthy of notice that the volcanic rocks occur in those parts of the country which are famous for fine scenery. This is a close connection between rugged scenery and volcanic rocks. The Lake District, and Scotland owe much of their beauty to the eruptions, which millions of years ago mingled igneous with sedimentary rocks.

Economy is not going without the thing we need when we have the money to get it. Economy is not having a good thing on the top shelf and using a poor one because it will do. Economy is making the most of what we have, and getting things that will do it to do better as fast as we can the money to buy them.

Applauds of vanity Senator Reid told at Yale about a politician who, the day before he was to deliver a speech, sent a forty-one page report of it to all the papers. On page 20 appeared this paragraph: "But he grew late, and I must close. (No, no! Go on! Go on!)"

Pills That Have Benefited. These are—Coughs, colds, and a sure remedy in the treatment of influenza, and all its dangerous complications of the stomach, liver and kidneys. Farnsworth's Vegetable Pills have brought relief to thousands when other specifics have failed. Innumerable testimonials can be produced to establish the truth of this assertion. Once tried they will be found superior to all other pills in the treatment of the ailments for which they are prescribed.

Books and Bacon. Godiva's Rise a Myth

The latest story to suffer at the hands of the implacable investigators is that of the ride of Lady Godiva through the streets of Coventry—all on the back of a horse.

On the map and a Lady Godiva actually lived there about the 11th century, but the scientific have been derived into mythic records and found that Lady Godiva wanted her husband to add in building and endowing a noble church. He agreed on condition that she strip herself of all her earthly possessions and live in poverty. A liberal interpretation would construe the clothes on her back as her only earthly possessions. The promise was made, but so far from the famous ride that the people of Coventry in the shadow of the annual celebration of the event, accepting the judgment that there was nothing to it.
